

# The ZocDoc Story

It started in 2007 with our founder's burst eardrum and his four-day wait to see the doctor. Technology has changed the way we access everything from late-night delivery to airfare. Why not healthcare?

ZocDoc was founded then with one singular mission:

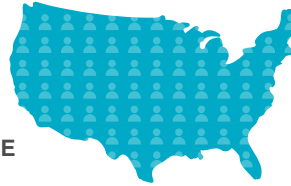

## Give power to the patient.

We got to work, beginning with online appointment-booking – and we haven't stopped building since.

With ZocDoc, you can see doctors' open appointment times and book instantly online, make informed choices with verified reviews, and stay on top of important checkups with tailored reminders. And those pesky waiting room forms? Fill them out online, just once, and keep them forever.

Of course, your healthcare experience probably isn't perfect yet. That's why ZocDoc will keep dreaming up solutions and rolling them out. But no matter what, we'll continue to put the patient's needs first. We simply believe there's no better way to deliver the great healthcare experience we all deserve.

EACH MONTH,  
MILLIONS OF PATIENTS  
NATIONWIDE TURN TO
